

EAGLE ONE HOME INSPECTIONS

TESTIMONIALS

4/13/2015

Richard performed a home inspection on our new property. He was extremely thorough and walked us through after to explain each detail. I have purchased homes before and have never received such a detailed inspection report. The report was easy to read and color coded. I also liked that he included photos of how to fix the issue. I recommend Richard to anyone who is inspecting a future home.

Richard was the home inspector for the house that my fisncé and I are in the process of buying and he was GREAT. Explained everything in detail and answered all questions we had. Highly recommend him :)

I have never seen an inspection report as detailed as this company. In the report there is colored ink to flag your eye on things that need immediate attention, pictures with arrows showing the problem, and the owner was very responsive for questions, scheduling, etc.

This company did our home inspection while we brought our six children and five of which kept running throughout the house. This company was very professional even when my kids bumped into him a couple times. He was not easily distracted and completed the inspection in a good amount of time while we were there.

They come out within a couple days of calling them. They are real reasonable for their price, and you get a great attention to detail in the report on things throughout the house.

I would highly recommend him to any of my own clients, as well as anyone needing a home inspection. He is no doubt professional in what he does.

I don't have enough kind words for the quality of work, professionalism, and thoroughness that Eagle One brought to our home inspection. Richard caught several issues that we were able to resolve before we closed, and we have moved in to our home feeling confident that all is well with our house. He even came back to re-inspect an issue to ensure it was completed to the level of quality expected. I highly recommend Eagle One!

Good morning Richard,

Delay????? I've never been through a home inspection before, but for as thorough as you are, I'm amazed at how quickly you finished this report. I want to thank you again for taking the time to explain things to me makes the home buying process a bit less scary with people like you in the mix. I will definitely recommend you to anyone in need.

Take care,

Stephanie
